NO ROWDINESS IN TAVERNS

Rowdiness about beverage rooms will not be tolerated by the Ontario Liquor Control Board, Chairman O'Brien has stated. "One warning only will be given and if it is not heeded the license for a tavern to dispense beer will be cancelled," the chairman declared.

His crus is through first of all on the hotel proprietor to see that the law is carried out—that there shall be no disorder, no drinking vulgarly, and profanity about the tavern portion of the hotel or in any other portion of the hotel. "No drinking; that patrons showing the effect of drinking shall not be served; and that within under 21 years of age shall not be admitted in the taverns. These laws are very explicit and proprietors know that they must be obeyed."

Mr. O'Brien stated in the case of a New Toronto hotel where "disorder" occurred, that he held the law enforcement to blame. Police have a duty to perform and they must perform it.

The man who uses the tavern should realize that he is provided with a privilege which he may lose through his own folly or the folly of the man who operates under the license. The tavern system of serving by the glass is something new to this province and is to be given a fair opportunity to show its value. It is necessary that the laws be obeyed.

The public is determined to find out if the present measure is in the best interests. The Premier has said that the regulations are not too strict and he will not allow that if there is not proper observance of the regulations, drastic modifications will be made.

The tavern rests with those who operate and use it. It must serve the needs of the community and have no place in the system of handling beer.

"MADE OVER"

John Dillinger, who died in a police trap last had his body removed and remodelled to escape detection. Even the removal of scars did not prevent his falling into the hands of the law.

Other persons who have facial operations have been for the purpose of improving the beauty of the face, to remove deformities, which are unsightly and in some cases, operations are performed for the plastic surgeon. It is pointed out, does not devote so much attention to the plastic case of the face as the plastic surgeon, a great opportunity for his removal of scars and other defects, and repaired or mutilated by shell bursts, and removed arms and legs. Since the war attention has been given to the work of repairing the helpless by delicate operations.

It was the intention of Dillinger to take advantage of plastic surgery to escape the law. There is no one so positive as the criminals generally could be made so transformed that they would not be known. To most individuals their peculiar looks are good enough, even to the police. The plastic surgeon will not be deluged with requests or rather orders from underworldlings to make over their "mugs."

Plastic surgery has a nobler purpose than that.

EMPLOYMENT IMPROVEMENT

The industrial situation showed further marked improvement at the beginning of July. Employers returning to the Dominion Bureau of Statistics had 941,665 persons on their July 1 staffs as compared with 895,000 on June 1, a percentage increase of 41.4.

The situation generally is better than on the same date in 1933.

The favorable movement in the last three months has provided work for nearly 91,700 persons, besides increasing the working hours of the employed.

The improvement compares satisfactorily with the aggregate gains of approximately 790,000, 11,000 and 58,000 reported in the same three months of 1933, 1932 and 1931 respectively.

The second quarter of the year is normally a period of intensified industrial activity, but the general increase in the last few months has considerably exceeded the average in the year since 1920.

Employment in manufacturing showed further improvement in July, in line with the usual seasonal trend on July 1; most of the gain occurred in the food, lumber and pulp and paper groups (except of coal), communications, services, trade, transportation, lodging and construction industries. The construction industry showed greatest expansion was in highway construction, in which some 25,000 new workers were reported, partly engaged in unemployment relief undertakings. Excluding the 25,000 new workers, the general increase in the numbers on the payroll in July exceeded the average gain noted in the year since 1920.

It seems to me, "the only note to be good"—Tennyson.

SIDELIGHTS

GRAVE AND GAY

THE SOPHIST

Come then, my friend, existence share with me  
In world's fantastic, and with plenty  
Of new-born pagans let us then survey  
A world of make-believe, a world of play!

We will not tread the sun-bathed, drift-lands  
In a lovely, fair, mind-created lands  
And midst their fair, enchanted shores  
Turn all our thoughts to sweetest reveries!

And there with a touch of cynicism, we  
Beneath a marvelously ever-ready nose  
There on the shore removed from noise  
We must perform it.

Gaze, working, on the raging seas of life!  
The world's a stage," a great one truly wrote,  
But let me add to these words which I quote—  
Almost ever the player's role is tragic.

For so mortal words of something magic  
And with the play of unified men  
We'll gaze upon the floating boards of them  
Of they who, lost with manhood's flag unfurled—

With their foe merciless, the modern world  
We oftentimes soothe our thoughts with  
The pleasant memory of the childhood  
To mellow days, and pleasant childhood haunts.

And these cherished thoughts create a tear,  
We long for days dream—of yester-year.

The past is now a serene, sweet, fitting  
To ghostly Limbo whom we plead and cry  
We're washed through mortal life with  
fate's sear.

Like leaves and flowers—then plucked  
We're washed through mortal life with  
fate's sear.

This sad-view of life for your inspection,  
Leaves naught, perhaps, but gloomy in-  
ferno. Great Chain is Nature of taken:

Her neophytes are few, and they adore  
The vision, press and starlight, treasured  
loves: Their thoughts are peaceful and rise far  
from love.

THE MAN-MADE THING WHICH MAKETH NOT  
FOR LOVE.

DIFFICULTY

IN RAISING

GIRL GREATER

Psychology of Female Child

By Louis E. Black, M.D., Ph.D.,  
Famous Authority on Health and Psychology

(Copyright, 1934, King Features Syndicate, Inc.)

Girls are harder to raise than boys. This makes the raising of the female child a much more subtle and delicate undertaking than that of her brother.

Young girls appear evasive and mysterious in the way they say and do. They are often evasive when questioned. Boys, on the other hand, prize themselves on their directness, honesty, their share of control, their consistency in upholding standards which they consider sacred.

A girl's mind is more involved and complicated than that of a boy. This makes the girl more difficult to understand. One can usually figure out what a boy is thinking about, what he likes and dislikes are motivating him, but it is not so with a girl.

With a girl one never can be absolutely sure, even if one has the help of the girl's own explanation. It must be remembered, that often the girl's mind is more complicated than that of a boy. This makes the girl more difficult to understand. One can usually figure out what a boy is thinking about, what he likes and dislikes are motivating him, but it is not so with a girl.

## A Start to Success

A first step towards business success is a bank account. No business-like man or woman can get along without a bank account.

Start with a savings account. Deposit a fixed proportion of income, however small, regularly and without fail, adjusting your expenses accordingly. This is a start to success, possibly to financial independence.

Interest is added to your savings on June 30th and December 31st in each year.

# SITUATION CALLED WORSE

'Hunger Marchers' Hear Report to be Presented to Premier Hodgson

Toronto, Aug. 1 (C.P.)—Members of the "Ontario hunger marchers" who have been on strike for a report to be submitted by them to Premier Hodgson, members of his government are today in a state of alarm.

"We have in mind all the promises made by Premier Hodgson and the report read by David Henderson, one of the organizers, and with the report the fact that in reality the situation has become worse since the changes in provincial government," says one of the leaders at Queen's Park today.

"Thousands of road workers have been fired, hundreds of girls are sent to work in mines, and the army of unemployed grows a day. No steps have yet been taken to alleviate the situation to prevent further disaster."

The economic programme of the new government seems to us to be a complete attempt to 'sell' the already laid burden of taxation during the existing emergency.

With an estimated crowd of from 50,000 to 60,000 people, the marchers will assemble in the park this afternoon, even though they face official permission to do so, and will present the report to the Premier. They also will present the "demand" for greater relief conditions, social insurance, works with union pay and elimination of class areas.

## MRs. ARTHUR BINE HOSTS TO W.I.

Wednesday, Aug. 2—The monthly meeting of the W.I. of Belleville will be held at the home of Mrs. Arthur Bine, 1011 Main st., with twenty-seven ladies present.

The meeting was presided over by the hostess, Mrs. Bine, who read the minutes of the last meeting and the minutes of the last meeting were read. The roll call was answered by Mrs. Bine, who read the minutes of the last meeting and the minutes of the last meeting were read.

With an estimated crowd of from 50,000 to 60,000 people, the marchers will assemble in the park this afternoon, even though they face official permission to do so, and will present the report to the Premier. They also will present the "demand" for greater relief conditions, social insurance, works with union pay and elimination of class areas.

## THOMASBURG PERSONAL NOTES

Thomasburg, Aug. 2—The above on Monday morning was greatly appreciated by her family and friends.

With an estimated crowd of from 50,000 to 60,000 people, the marchers will assemble in the park this afternoon, even though they face official permission to do so, and will present the report to the Premier. ## Mother! Here's How Ovaltine Cures Child Nervousness

While Adding Weight Pounds a Week or More

OVALTINE is a scientific food beverage, approved by thousands of doctors and child specialists largely because of its remarkable power to increase both weight and nerve power.

Recent scientific tests conducted among school children in New York State have demonstrated that nervousness was actually decreased as much as 25% in two weeks.

Thus, when Ovaltine is given, it acts to break up the "viscous circle" that nervousness and underweight tend to create. And it usually adds weight at the rate of a pound a week or more.

You simply give Ovaltine, shaken up with cold milk, and children lose the vicious circle.

## FISH KILLED OFF

BY ALGAE IN WATER

Phlegm is abundant off in the Bay of Quinte, and even the fishery dependable bass are turning up dead. The cause of the trouble is the algae in the water, which is believed to be responsible for the condition and death of the fish.

The fishery is now closed, and the water is being treated with chemicals to kill the algae.

## Moira Welcomes Home Her Sons and Daughters Who Answer Her Call

(Continued from Page 1)

The money raised for recreation, gifts for the sports and publicity for the "year" in Moira. Many over one thousand dollars were raised in a recent for the province of Ontario as the first event of the summer.

Arch of evensong against the morning sun and the shadows of the trees and bushes formed a lovely picture.

The first Old Boys' Reunion in Moira, Ontario, was held on Monday and seven years of the past were recalled in the first event of the summer.

THE DAILY ONTARIO INTELLIGENCER is published every afternoon except on Sundays and public holidays. It is published at the Ontario-Intelligencer Building, 100 Dundas Street, Toronto.

**HOLIDAY DANGERS**  
J. F. E. Wray, general manager of the Ontario Safety League, draws attention to the recent advice given by the Honorable Dr. J. A. Poulton, Ontario Minister of Health, regarding holiday dangers. He says when driving:

Do not grip the wheel lightly nor hold the body tense. Relax the body and go slowly when "taking the bumps." Many cases of bad spinal are reported to have been caused by the motorist hitting the roof of the car when sitting stiffly upright.

Do not admit the legs to reach the accelerator or brake pedals.

Do not drive for too long a period at one time. Stop every 15 minutes to rest, avoid fatigue. Maintain a steady driving pace and avoid stops or driving at high speeds.

In regard to vacation roads, Dr. Faulkner says:

Do not overeat when driving or at the vacation objective. It is better to eat small meals in hot weather. Eat plenty of water and avoid alcohol.

Do not drink from roadside streams or from any other source of water.

Do not swim in water liable to be polluted by sewage. Keep to the streams where there is running water.

Do not minimize the effect of contacts with poison ivy, poison oak or poison sumac. Do not touch them without expert care and use recommended remedies.

In serious cases, consult a physician.

Those associated with Safety and Accident Prevention work often find that people continue to take chances which they know.

Last year, in Ontario alone, 311 of our people were killed under 16 years of age. We are to take chances.

What if there is no reason to take chances? If you or I may be a victim.

1416 fatalities according to our accident statistics on 250 less than the rate.

The rate of decrease will not continue unless we are more careful, unless we "watch our step."

The worst five of these hazards during 1933 were: Automobile accidents, people killed; Drowning, 301 people killed; 146 people killed; Burns and Scalds, 66 people killed; and 998 people killed by these five hazards alone.

Everybody seems to listen to more instructions than anything about highway traffic accidents. Perhaps the most common mistake has somebody else to blame. Why is it that a greater interest is taken in the aquatic hazard? WHY?

Last year, during the months of July and August, the water has claimed 193 lives in comparison with 128 fatalities from the motor vehicle hazard.

It may help to publish again some Safety warnings to prevent traffic accidents:

1. Drive on right hand side of road.  
2. Drive one-half the road when passing other vehicles.  
3. Do not permit other vehicles to pass when driver sounds horn.  
4. Look and listen before crossing any railway track. Stop, Look and Listen.  
5. You have not a clear view up and down the road.

**AQUATIC:**  
1. Learn to swim.  
2. Keep out of water for two hours after eating.  
3. Do not attempt to swim in rough water.  
4. Keep out of the water when there is no undertow. Always use a life preserver, the undertow may pull you under to your death.  
5. All automobile babies and inflated toys are used by thousands of children. The toys or for toy should be used as life preservers. They directly cause many deaths every season.  
6. The child gets out beyond his depth and holds onto the water hat and loses his grasp or let it float and another child is lost. Parents should remember this warning.  
7. Do not dive in shallow or unknown water. Every season has had many deaths. Do not swim out of your depth in cold water. Your muscles may tighten or cramp.  
8. Never stand up, change scale, rock or fall in a boat. Any one who knows how to handle them and unless you are able to swim. Swimmers must remember that non-swimmers make all the fatal cases. Swimmers avoid the death roll. They over-estimate their ability and are sometimes foolhardy.  
9. Learn resuscitation and be able to save a life.  
10. Distracted interest with water is free by the Ontario Safety League to any writing for a copy.

## SIDELIGHTS HOW TO TREAT INFANTILE PARALYSIS

**BRADY AND HAY**  
Invented by the Manufacturer  
Serrum Treatment Of Use With Success, Especially After the Onset

By LOUIS E. BRUCE, M.D. (Former Assistant to the Minister of Health)  
Infantile paralysis is also known as acute anterior poliomyelitis. The disease is caused by a virus which is found in the air. It is said now, that the disease may affect other parts of the central nervous system, even the brain, and that even actual paralysis may be caused by infection. When paralysis is a symptom it is the motor variety. The patient may be the victim of a mild or severe attack, but he cannot, after the attack, move his limbs. In some cases, the attack is so severe that the patient is unable to move his head, or even his arms. In some cases, the attack is so severe that the patient is unable to move his head, or even his arms. In some cases, the attack is so severe that the patient is unable to move his head, or even his arms.

A Belleville paper relates an encounter with Conductor Pat Shannon many years ago which he chuckles over now, whenever memory recalls the picture.

The Belleville printer found it necessary to get to Wellington quickly, but only had money enough to buy a ticket to Trenton where he changed cars for the Picton train, which was boarded without ticket, taking chances. The train pulled out and Conductor Pat Shannon came along in his leisurely, chattering fashion.

The printer was asked for his ticket, replied that he had no ticket but it was impossible to get off at the Picton station where the money for the ticket would be forthcoming.

No ticket, no ride, said Conductor Pat, who was to get off at the Picton station. However, the printer had occupied considerable money, and the passenger had won to Miller anyway.

At Hiller he asked Conductor Pat to let him get off at the Picton station, where the money for the ticket would be forthcoming.

At Hiller he asked Conductor Pat to let him get off at the Picton station, where the money for the ticket would be forthcoming.

"What the devil are you doing here, didn't I tell you to get off and walk," said the conductor.

"Sure you did but I lost my ticket," said the printer.

Well they argued back and forth, for the Belleville printer was a bit of a fellow, and Conductor Pat was not far behind with the blarney, until finally the white of the locomotive's headlight came into view, and the train proceeded.

"What the devil," said Conductor Pat, "are you doing here, didn't I tell you to get off and walk?"

"Sure you did but I lost my ticket," said the printer.

Night Game Wild and Woefully with Score 14-10 at End

## BEARS LOSE

By the Associated Press  
It begins to appear as though only a complete overhaul of the Bears' defense will save them from being beaten by the Leafs in the final game of the playoffs.

The Bears have not been particularly impressive on the road but they have been such a heavy majority of victories at home that their record has been maintained to remain within halting distance.

They dropped a 4-6 decision to the Leafs in the first game of the playoffs. Buffalo has night but maintained its lead in the playoffs. The Leafs won the game by a score of 14-10.

WORSE FOR CROOKS

Lawbreakers in cities where police are made to intercept crooks have received bad news as it is announced that a two-way system has been threatened which permits police to follow crooks in the purlieu car to communicate with their chief at headquarters while they are cruising the streets.

General Electric Company of Schenectady has perfected this equipment. The car carries in a special compartment more than a dozen telephone bays so that evidence of a special equipment, such as a protruding "hub-pole" antenna, is not visible. The car is a two-way system, trunk of the light sedan. A French-type telephone was installed in a compartment on the inside of the panel, where it could be used by the passenger, or even the driver, if necessary. When the car was called by headquarters and the instrument was lifted from its hook, began to transmit, on a different wave length, to function immediately. From this point on to the procedure for the telephone conversation.

The transmitter was located in one of the offices was turned over to the victim to serve as "headquarters." From this point it was possible to carry on a running conversation with the cruising car as it drove about the city.

A temporary one-way system operating on medium high frequency has already been installed in Boston for police use. Later this will be replaced with the new two-way system. GASOLINE TAXES AND DRIVING

Increase of twenty-five per cent. in Ontario's average per gallon has been paid by motorists in Canada is one of the complaints of the Montreal Automobile Association. The association has issued a statement based on the 1933 figures just released by the Dominion Bureau of Statistics. The average gasoline tax in Canada for 1933 was \$1.01 per gallon. In 1934 it was \$1.26 per gallon. This represents an increase of twenty-five per cent. The average gasoline tax in the United States for 1933 was 12.4 cents per gallon. In 1934 it was 15.6 cents per gallon. This represents an increase of twenty-six per cent. The average gasoline tax in the United Kingdom for 1933 was 1.5 pence per gallon. In 1934 it was 1.9 pence per gallon. This represents an increase of twenty-seven per cent.

The statement comments: "Study of the above figures shows a trend to decline in the consumption of gasoline almost identical with the increase in the tax on this product, which, originally, was imposed to pay for highways, but is being absorbed into revenues to be used for general purposes."

Alarmed at the persistent increase in the taxation, motor executives throughout Canada are indicating to their respective governments that some alleviation will be eventually lead to the more intensive use of automobiles and that this will result to the benefit of provincial treasuries.

BATHING BARS

Belleville youths and boys to the number of several score have ventured to break the bathing bars in the harbor. That is unfortunate because it is felt by the authorities that the bathing bars are a nuisance and perhaps of the hay while a little more satisfactory, is not altogether a bad thing. The ban, one would have thought, would have been willingly accepted by the boys. But the warden of the Board of Health, who was the order of the board, has been ordered for ten days or more. The sudden return of the heat wave of the last two days brought about the return of the bathing bars in the harbor. The board has given notice, it is reported, to the dipping in the river and gulping a mouthful of water now and then, only the bathers who are not so health conscious can be placed upon the health authorities.

The belief that there is a lack of authority to reinforce the order of the board is of course what has caused the trouble. The youths and boys have broken up the bathing bars in the harbor. Hayl: What did you say? Am I going to Bellsville Fair this year? Say, son, I never missed a Bellsville Fair in forty years, and I ain't got to miss one now when they're getting so god darn interesting. Don't know how I'd live the winter through witho' our own recollections of Bellsville Fair in talk about. I'll see you there, by hickory, so don't ask any more foolish questions.

### SECRETARY OF DISTILLER DENIES STORY

Prominent Sportsman and Distiller Does Not Care to Speak of Threat, Report

### "NOTHING TO IT"

Rumor Says Purported Kidnapper's Death Message

Toronto, Aug. 18 (CP)—Harry O. Hatch, well known Toronto sportsman and sportsman, today refused to discuss a report he had been threatened by purported kidnappers and instructed his secretary to say "nothing to it."

Convinced that the accusation was a hoax, Hatch, who lives in London, where the report came, refused to discuss the matter. He said he had been threatened by a man who was a friend of his, but he had no idea who the man was.

### NEED POLICE UNIFICATION

Attorney General Reuben Shows Weakness of Present System

Toronto, Aug. 18.—Difficulties of the police system of Ontario, Attorney General Reuben, today pointed out in a speech before a committee of the Ontario Legislative Assembly.

The state should be in a position to deal with the situation, he said, but the present system was too weak to do so. He called for a unification of the police forces in the province.

The union of the police forces would be a step towards the unification of the province, he said. He called for a unification of the police forces in the province.

Argentina Demands Quota of 100 Million Bushels in 1935

### UTTER COLLAPSE

Extremely Doubtful If Agreement Reached

London, Aug. 18.—The "big four" wheat exporting nations admitted failure today in attempts to reach an agreement on a schedule for 1934-35 export quotas.

The collapse was made known when representatives of the countries—the United States, Canada, Australia and Argentina—made a report before the full international Wheat Conference.

A long session was held yesterday by the four representatives with a view of reaching a preliminary agreement on a schedule for 1934-35 export quotas.

The full conference marked the first time the new delegate from Argentina, Alfredo C. de la Haza, had taken part in the conference.

## RURAL PROBLEMS

The Ontario Association of Rural Municipalities will discuss a number of interesting problems at the meeting to be held at 7 o'clock on the fourth of September.

The big problem is the overhauling of the tax-bill of taxation. Taxes are never popular in a political campaign. It is popular to cut taxes. A letter from the secretary commends a tax-cutting measure. It is not a tax-cutting measure. It is a tax-increase. The average tax-payer who would spend his money on a certain article, say, a car, would not think much of the automobile and hotel accommodation expenses. He would not think much of the certain ability to pay will have to reserve more considerations. It is pointed out that the services of Mothers' Allowances, the system of free school, Old Age Pensions, free hospitalization for indigents are costly but none can be eliminated.

The letter refers particularly to the payment of indigents which has increased at an alarming rate, unemployment, the cost of living, the cost of food, the burden of those who are unable to pay for medical and hospital treatment.

Upon all these there will be discussion and recommendations to the government.

## THE JAPAN'S NAVAL POLICY

At his first meeting with representatives of the press, Premier Kelsoe Okada stated clearly Japan's ideas on naval disarmament. The conference was held in 1935. Naval Conference would succeed. He declared that Japan did not want to have a navy with the United States and Great Britain at the conference, because such radical disarmament could not come suddenly. At the same time he said he could not favor the burden of taxation borne by people of the world which "hurts the self-respect of certain nations."

Japan's proposed some better method could be discovered, but admitted that he was not in a position to make any definite statement. Japan was still undecided. He added, however, to abrogate the London Treaty of 1922, which limited the United States, Great Britain, and Japan established a 6-6-6 ratio for capital.

Answering a question as to whether he believed a naval race was inevitable between Japan and the United States, Okada said he believed in a naval race. He said that, on the contrary, was confirmed by the London Treaty of 1922, which limited the United States, Great Britain, and Japan established a 6-6-6 ratio for capital.

An authoritative British source, commenting on Premier Kelsoe Okada's statement on naval disarmament now depends upon Japan. The British Government has been asked to make a statement to a London correspondent of the Associated Press, as feeling that "disarmament now reached a point where anything else about what Japan's attitude will be."

## CONGRESS OF YOUTH

Paying their way or hitch-hiking if they can't walk or riding the roads if they can't, 500 young people will gather in New York next week for the annual Congress of Youth. The young men have resolved to claim their heritage of opportunity. They will hold their meetings at the grandest of New York University in the large lecture-rooms in the University Square Building, where plans for their care and comfort have already been made. The Congress will be held in the city of the younger statesmen and adviser to the RFC, who went to Harvard University in 1914, and who was recently graduated at seventeen will open this parliament of youth.

There is a large and ambitious program to salvage their generation, thousands of whom had died as menials until they were added by funds earmarked by the Federal Government and the District of Columbia, and found refuge in ninety-two special camps and 144 camps of the Federal Government.

The Congress will discuss methods of solving youth's unemployment problem, the question of the right to be related to work, the day, and the establishment of certain goals for which the young men will strive. They will make a strike a day. The delegates will be heads of about seventy youth organizations in the United States and young men's leaders in other fields of endeavor.

The movement of the Congress has no particular parentage, unless one might say that it was fathered by circumstances and mothered by war. It was organized for war, and preparing for more, waiting for the salience of the war. It has little time for the younger generation. True, the administration has said that it is not for the young, but it is mostly of an emergency nature, the result of which is chiefly economic interest.

## ROOFS

They slept beneath canvas, and slates roof and red.

'Neath iron-topped shanty and wooden plank.

Been bunked in tramp saloons and roofed in fast tracks.

Down in a glasshouse 'neath rain scattered spars.

And there, too, amidst mud, dreamed dreams of a better day.

Stayed sheltered in ditches with roof of ice.

'Twas 'neath a thatching befriended by birds.

And humbly applauded their songs with out-cries.

## Come to My Wedding

**By Ruby M. Ayres**

[illegible]

"My sweet!"  
"You'll be very uncomfortable  
that couch."  
"I'll be in heaven anywhere."  
"Good night, then." She lifted his  
face almost hungrily. Like a child  
asking pardon for something, a  
David kissed her. Like again, ven-  
gerfully.

Uthna was huddled upon a little pile of grasses in a rude thorn shelter in the open jungle. It was night, but she was not asleep. She watched a faint white man who squatted near a tiny fire. On his face she smoldered in her eyes as she regarded him. No longer did Uthna think of Melwada as the River Devil. This man's fear of the jungle beasts all about had made her, then, their confidant the girl that her companion was an impostor, for Uthna knew, she knew, saw nothing.

commencing to doubt that the fellow, of whom she had heard such fabulous tales, had come to look upon the world as a devil himself. Her people had said she was strong and brutal, and would harken to her if she could only escape from his clutches. But she had planned it, but it failed because of the terrible fear she felt in the jungle.

He had come to realize that at the first anger this white man would bolt for the door. But before she left him, she decided to put a little brain to revenge herself for the trick he had played on her. She had tricked her into aiding him, to escape Cannibal's village. Now as her glittering dress and the Spaniard, she thought she saw a glimmer of revenge. The freight showed her Miriam looking over the contents of a small buckskin

## Bids Everybody— WELCOME To The BELLEVILLE FAIR

*BELLEVILLE* has a lot to be thankful for these pleasant August days. Once more our city will be proud host to those upon whom her prosperity depends; once more she will welcome all the Bay of Quinte region to **THE FAIR**.

All day long the Fair Grounds will be a pattern of gay changing color. The spectacle is one that makes children dream of the great mysterious world they have never seen. And it carries grown-ups back to the magic land of *Make-Believe* that is childhood's illusion. At night the brilliant many colored lights streak the sky and life whirls gayly along the music-filled Midway.

Soft-eyed, satin-coated, beef cattle enjoy their brief day of triumph before they grace the tables of the world. Nimble-footed steeds prance in happy reminiscence of the time when the horse was king. Fruits of the field, the orchard, the shop and the loom dazzle the visitor's eye. Handicrafts proudly proclaim that the days of individualism are not dead. Clear-eyed, straight-limbed boys and girls from the farms vigorously attest the sturdiness of their Canadian upbringing.

All the city wears holiday clothes. Each shop and store will be a miniature exposition in itself. Living takes on a faster, more thrilling tempo.

Fair Week is in many ways the happiest time of the year. The swiftness with which it comes and goes makes it all the more worthwhile enjoying. Don't miss it this year. Earn, beg, borrow or steal the time and money to see it—but be sure to come to The Belleville Fair!

# THE ONTARIO INTELLIGENCER

The DAILY ONTARIO INTELLIGENCER is published every afternoon (Sunday and Holiday excepted) at The Ontario Intelligence Building.

## THE ANNUAL FAIR

On Tuesday afternoon, August 28th, the annual fair of the Ontario Intelligence Building will be formally opened by the Minister of Health, the Hon. Dr. J. A. Faulkner, who will preside over the opening ceremony. The fair in Belleville dates back far beyond memory, and the day is one of the most popular of the year. It is a fair which has been held for many years, and the exhibitors have continued from the first to the last. The fair is a fair of the people, and the people are the people of the fair. The fair is a fair of the people, and the people are the people of the fair.

On Tuesday evening, August 28th, the fair will be held at the Hotel Hastings Park or Home and Castle. The fair was for the first time held in the town hall, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years.

With such records as these, it is not to be wondered at that the fair is considered the life of the community. The fair is a fair of the people, and the people are the people of the fair. The fair is a fair of the people, and the people are the people of the fair.

The exhibition has a very practical side, and it is a fair of the people. The fair is a fair of the people, and the people are the people of the fair. The fair is a fair of the people, and the people are the people of the fair. The fair is a fair of the people, and the people are the people of the fair.

There is that side of the exhibition, the influence of which cannot be compared. The fair is a fair of the people, and the people are the people of the fair. The fair is a fair of the people, and the people are the people of the fair. The fair is a fair of the people, and the people are the people of the fair.

Belleville fair is one of that large number of fairs which must go on—being as much a part of life as springtime and autumn, and as much as the fruit of the city folk.

## 400 YEARS AGO AND TODAY

Today there took place the celebration of one of the greatest anniversaries of the New World, when tribute was paid to the discoverer of America, Christopher Columbus. The fair was held in the town hall for many years, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years.

Christopher Columbus came to America forty-two years ahead of Jacques Cartier. The fair was held in the town hall for many years, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years.

Canada should be proud that the first man to colonize this country was a man of heroic mould, and a Frenchman. He had the blood of the north and in his heart he carried a devotion to religion which marked him forward as well as his courage.

One of his first acts was to erect a cross and take Canada in the name of the King of France. It is this cross, the first cross in Canada and Britain can look with some pleasure upon this event when they see

their descendants of the two races living in harmony and with a vision the bounds of which stretch beyond the wide horizon. The fair was held in the town hall for many years, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years.

Today a memorial cross was unveiled at Gaspé on the very spot where Cartier landed. The fair was held in the town hall for many years, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years.

Every Canadian should try to live in his own land, and to be a Canadian. The fair was held in the town hall for many years, and it was held in the town hall for many years. The fair was held in the town hall for many years, and it was held in the town hall for many years.

# MR. C. DUNHAM INJURED IN FALL

Mr. C. Dunham, 55-year-old, and Mrs. Mary Dunham, 52-year-old, of 1000 St. George Street, Toronto, were injured in a fall from the top of a building on Thursday, August 27.

The fall was the result of a fire which broke out in the building on Thursday, August 27. The fire was caused by a gas stove which had been left burning unattended. The fire spread rapidly and the building was soon in flames.

Mr. Dunham was on the roof of the building when the fire broke out. He was trying to get down when he fell. Mrs. Dunham was also on the roof and she was injured when she fell.

The fire was extinguished by the fire department. The building was damaged and the fire caused a loss of about \$10,000.

# Canada is Man's Country To French Women Writers

By JOSEPHINE HAMILTON  
(Canadian Press Correspondent)  
Ottawa, Aug. 28 (CP)—They said that France was the land of the poet, the land of the artist, the land of the lover. But now they are saying that Canada is the land of the man, the land of the soldier, the land of the hero.

## Bids Everybody— WELCOME To The BELLEVILLE FAIR

*BELLEVILLE has a lot to be thankful for these pleasant August days. Once more our city will be proud host to those upon whom her prosperity depends; once more she will welcome all the Bay of Quinte region to THE FAIR.*

*All day long the Fair Grounds will be a pattern of gay changing color. The spectacle is one that makes children dream of the great mysterious world they have never seen. And it carries grown-ups back to the magic land of Make-Believe that is childhood's illusion. At night the brilliant many colored lights streak the sky and life whirls gayly along the music-filled Midway.*

*Soft-eyed, satin-coated, beef cattle enjoy their brief day of triumph before they grace the tables of the world. Nimble-footed steeds prance in happy reminiscence of the time when the horse was king. Fruits of the field, the orchard, the shop and the loom dazzle the visitor's eye. Handicrafts proudly proclaim that the days of individualism are not dead. Clear-eyed, straight-limbed boys and girls from the farms vigorously attest the sturdiness of their Canadian upbringing.*

*All the city wears holiday clothes. Each shop and store will be a miniature exposition in itself. Living takes on a faster, more thrilling tempo.*

*Fair Week is in many ways the happiest time of the year. The swiftness with which it comes and goes makes it all the more worthwhile enjoying. Don't miss it this year. Earn, beg, borrow or steal the time and money to see it—but be sure to come to The Belleville Fair!*

## TILLIE THE TOLER

he did, me saying to Puda, you got to stand for any reason that about your steps. Why don't you challenge him, you can lick him easy, I and the other fellows said. Why don't you, Puda, he'd win for you, he'd be easy as would be a shame to lick you could do it so easy. Why do you think that, it's Puda said about to kiss, that's my reason, he said, and Leroy said, then why don't you challenge him to a duel, me and will be your second, what may?

I said, and Clarence Mages and me and said, that'll be second, and Puda striking him, he said, you can't hit me, so on over and tell

## BRINGING UP FATHER

As being the champion wres-  
sler account of his rely shape  
him hard to hold down and  
has to do is fall on you, and  
he and Sid went over to tell  
my and came back saying, "We  
go to it and he says to tell  
his choice of weapons is a race  
at the block and whoever loses  
to let the other fellow give  
us swift kicks, and he says to  
you if you want to go to it you  
't get any more nerve than  
I've got."  
"Says Sid," "Puck said, 'Shiny  
the champion runner on ac-  
count of his legs, and we got up  
a lot of cops and robbers and they  
got to it and the dust was  
raised forever."

**"We're Rich Again"**

A notable and highly amusing example of the subtle ways in which a play can be written in a far more than the obvious manner. "We're Rich Again" is the story of Arabella, a girl who comes to visit her aristocratic cousin at Santa Barbara. Her unbridled ardour seems most funny, but the comedy is in a far more than the obvious manner.
